

QuickMD Awarded 2022 Top-Ranked Impact Tech Solution by X4Impact

Los Angeles, CA December 15, 2022. X4Impact is the leading Insights as a Service company for social innovation in the US with a directory of over 3,000 providers of social good products and services. QuickMD has been chosen by X4Impact as the top-ranked solution in the areas of Addiction and Woman Leadership for its popularity in search results and for meeting key criteria set by the X4Impact ranking system, based on a proprietary algorithm.

The X4Impact Tech Directory helps nonprofits, government entities, businesses, and investors find solutions tailored to fit their specific needs. The Tech Directory uses the United Nations Sustainable Development Goals as the rubric for sorting solutions by impact area. People can also search by keyword, filter by X4Impact badges including diversity in leadership, or sort by most popular or most recently added.

QuickMD's network of over 140 U.S.-based doctors provides world class healthcare to hundreds of thousands of individuals struggling with Opioid Use Disorder (OUD) in over 40 states annually. The nation's leading provider of Telemedicine, MAT, and TeleMAT, QuickMD was awarded the 2022 Top-Ranked Impact Tech Solution by X4Impact for the categories of Addiction and Woman Leadership.

"QuickMD is grateful for this recognition and pleased to receive awards for our TeleMAT addiction recovery services and for our support of women in leadership," said Jared Sheehan, CEO of QuickMD. "We are fully committed to help end the opioid crisis which is currently at an all-time high in the U.S. In support of this mission, QuickMD continues to hire the best minds in medicine who join us in our mission to provide compassionate, stigma-free support for those who struggle with addiction."

"One of the biggest challenges in this sector is measuring impact. It is easy for one to become lost trying to decide which business, organizations, and impact-areas to support. People often have questions about sustainable development, maximizing impact, support for BIPOC and minority-lead businesses, while choosing organizations that prioritize public interest," states X4Impact VP of Product, Josh Wojcik. "We have solved this problem by using technology to curate and maintain the largest directory of high-impact public-interest organizations helping others to shape decisions that are making our planet a better place for future generations."

About QuickMD

QuickMD is a telemedicine service with over 140 U.S.-based doctors who provide urgent care, Medication-Assisted Treatment (TeleMAT) for opioid addiction, and a wide range of other healthcare services to hundreds of thousands of patients annually. QuickMD is the first U.S. telehealth service to provide buprenorphine (Suboxone) for opioid addiction entirely via telemedicine. QuickMD delivers HIPAA compliant online healthcare that's convenient, affordable, and accessible to all Americans regardless of location, race, gender, age, or socio-economic status.
