

QuickMD Expands Company Executive Leadership with the Hiring of Zeev Walny

Los Angeles, CA, December 21, 2023 – Zeev Walny has been appointed Chief Operating Officer of QuickMD, a national telehealth company dedicated to providing urgent care, addiction treatment, prescription weight loss, and counseling that is affordable and accessible to all.

Zeev brings over 20 years of clinical, strategic and executive leadership experience to QuickMD. Zeev has experience providing direct patient care, developing clinician relationships, and managing at the local, regional, and national levels supporting growth and development for mid-to-large scale organizations. Most recently, he served as the Vice President of Market Expansion and Development for Forefront Dermatology, where he provided strategic guidance and process optimization for the company's site growth and de novo planning and execution, expanding their national footprint.

“We are very excited to welcome such a thoughtful, process driven leader into the COO role. His background and expertise are a great match to the QuickMD culture. Zeev will, no doubt, enhance the value, efficiency and capabilities of the organization, driving growth and increasing our reach,” said QuickMD CEO Rachel Boryachinskiy.

Zeev completed his undergraduate degree at the University of Illinois at Chicago and received a master’s degree in health administration from Tulane University.

“I couldn't be more excited and honored to join the QuickMD team. Telehealth is going to be a major part of the future of medicine, and to be on the precipice of that with a young and growing company is invigorating. The growth that QuickMD has experienced in its short history has built a solid base for us to rapidly develop and truly invest in the health of millions of people. I look forward to expanding and optimizing the organization, investing in our team, and building our strategy to increase our reach in all 50 states and beyond.”

Jared Sheehan, QuickMD’s previous Chief Operating Officer has been appointed QuickMD’s Chief Innovation Officer. Jared will lead the company in partnership agreement negotiations, management, and execution.

QuickMD launched in 2019 and is a rapidly growing national telehealth company dedicated to providing addiction treatment, prescription weight loss, urgent care, and other services that are affordable and accessible to all. QuickMD currently operates in 45 U.S. states with 3 in-office clinics and continues to grow to meet patient needs with a growth rate in the last year of 200%. The company is focused on solving the opioid epidemic in the U.S. as one of the largest tele-MAT organizations in the states and is similarly committed to aiding in the obesity epidemic by offering affordable cash-pay prescription weight loss services via telehealth. QuickMD aims to serve everyone, everywhere, at any time, and will continue to innovate our services to make this possible.
